The Revolution Against Evolution

Catalog of Programs

P.O. Box 80664, Lansing, MI 48908-0664

[SHOPPING CART](#)

Program No: 495 Not Just Fire Insurance

Date Produced: 11/14/2012 Guests: Doug Sharp and Rich Geer

Doug and Rich reflect on the fact that it seems that though we present valid reasons to reject evolution and embrace Christianity, there is an extreme tendency to ignore the message. Doug and Rich discuss reasons for this and provide a possible cure.

Program No: 504 The Fall of Man and the Fall of Satan

Date Produced: 3/31/2012 Guests: Doug Sharp and Rich Geer

Essential to understanding the Christian worldview versus the Evolutionary worldview is understanding the explaining power of the fall of man and the fall of Satan and why God allowed it to occur.

Program No: 503 Compromise Theories

Date Produced: 3/26/2012 Guests: Doug Sharp and Rich Geer

The Gap Theory, Day-Age Theory, Theistic Evolution, Progressive Creation, Framework Hypothesis are all among a number of compromises with evolutionary long ages.

Program No: 502 Facial Angle and Evolution

Date Produced: 3/20/2012 Guests: Doug Sharp and Rich Geer

Jerry Bergman writes an article about how the angle of the face was used as proof of evolution and also as a racist argument.

Program No: 501 The Dark Side of Charles Darwin

Date Produced: 3/3/2012 Guests: Doug Sharp and Rich Geer

Jerry Bergman's book "The Dark Side of Charles Darwin" is a biography of the man who in his own words "murdered God." Darwin's psychotic behavior and illnesses indicate that this man was very troubled by his own mental state, and for that reason alone, his credibility as an honest scientist can be questioned.

Program No: 500 The Soul of Adolph Eichmann

Date Produced: 3/3/2012 Guests: Doug Sharp and Rich Geer

This is a review of two articles on the Creation Ministries International web site about the trial and death of Adolph Eichmann, and how a minister was sent to him who explained the gospel but could not get beyond Eichmann's belief in evolution.

Program No: 499 The JEPD Theory

Date Produced: 2/11/2012 Guests: Doug Sharp and Rich Geer

The JEPD Theory or Documentary Hypothesis claims that Moses didn't write the Pentateuch, and the authors were 4 separate individuals. This goes against everything we know from archaeology and scripture. The premise was based upon the notion that writing hadn't developed by that time.

Program No: 498 Return from South Sudan

Date Produced: 2/9/2012 Guests: Dan Janzen, Doug Sharp, Rich Geer

Dan Janzen returns from an agricultural mission trip to South Sudan.

Program No: 497 Donald Patton's Fossil Evidence

Date Produced: 2/5/2012 Guests: Doug Sharp and Rich Geer

Donald Patton is a creationist paleontologist and explorer who has a myriad of fossil and archaeological evidence for creation, especially concerning the existence of dinosaurs living up to recent times. He is also famous for discovering human and dinosaur tracks at the Paluxy River in Texas.

Program No: 496 A Tribute to Dr. John N. Moore

Date Produced: 1/21/2012 Guests: Doug Sharp and Rich Geer

Doug Sharp talks about the influence that Dr. John N. Moore at Michigan State University had on him. His boldness to speak out against evolution cost him dearly in the end, but he left a legacy of ministry to young college students.

Program No: 494 Evolution's Effect on Modern Art

Date Produced: 1/11/2012 Guests: Doug Sharp and Rich Geer

Rich gives his perspective as an artist upon the effect that evolutionary ideas and philosophy has had in the modern art world. He observes a progression or devolution of art where it goes from expressing meaning in light of a creator to the nihilistic point of view of atheism.

Program No: 493 Folding Proteins

Date Produced: 12/27/2011 Guests: Doug Sharp and Rich Geer

Dr. Royal Truman writes about experiments conducted where proteins are split, put backtogether, and the way they fold is different. Doug and Rich discusses why this complicates the evolutionary origin of life.

Program No: 492 Europe Tanks

Date Produced: 12/20/2011 Guests: Doug Sharp, Rich Geer, Rich Overman

Rich Overman is a guest discussing the situation in Europe where interest in Christianity has dwindled to the point where it has become largely irrelevant to most Europeans, and the reasons why.

Program No: 491 Curiosity

Date Produced: 12/18/2011 Guests: Doug Sharp and Rich Geer

Doug Sharp and Rich Geer comment on the search for life in outer space and the launch of the space probe called "Curiosity" to rove the planet Mars.

Program No: 490 Avoiding Logical Fallacies

Date Produced: 11/28/2011 Guests: Doug Sharp and Rich Geer

Doug and Rich talk about logical fallacies used in the creation-evolution debate, how to avoid them, and recent examples of fallacious arguments confusing the picture.

Program No: 489 Does the Creation Worldview Correlate with Attitudes of Morality?

Date Produced: 11/17/2011 Guests: Rich Overman, Doug Sharp and Rich Geer

Rich Overman talks about his master's thesis study that correlated attitudes toward morality to acceptance of scripture and young earth creation.

Program No: 488 Transformed by the Evidence

Date Produced: 11/17/2011 Guests: Doug Sharp and Rich Geer

Transformed by the Evidence is the title of a book edited by Doug Sharp and Rich Geer. It contains 24 stories of lives transformed by evidence for God's creation.

Program No: 487 South Sudan Mission

Date Produced: 11/12/2011 Guests: Doug Sharp and Dan Janzen

Dan and Teresa Janzen have been called to a mission trip to South Sudan where he is helping to reform the agricultural business according to creationist principles.

Program No: 486 What Happened During the Days of Peleg?

Date Produced: 10/22/2011 Guests: Doug Sharp and Rich Geer

There has been a running debate between creation geologists as to whether anything of geologic significance happened during the days of Peleg in Genesis where it says that "in his days the earth was divided." The debate is whether the continents split apart during that time or whether it was the division of languages.

Program No: 485 Early History of Creation Science

Date Produced: 10/19/2011 Guests: Doug Sharp, Rich Geer, David Bradbury

Doug, Rich and David Bradbury discuss the early history of creation science before Henry M. Morris. Authors such as Luther Townsend, George McReady Price and Alfred Rehwinkel were among early authors who argued for a strict biblical world view.

Program No: 484 Please Sigh: A Story about Point Mutations

Date Produced: 10/13/2011 Guests: Doug Sharp, Rich Geer, Kevin Anderson

A note from a teacher said: Progress reports will be coming out this Friday. Please sigh, and return by next Monday. This shows the difference in meaning a point mutation can make in a DNA molecule. Changing one nucleotide can change the meaning drastically. This poses a huge problem for evolution.

Program No: 481 Computer Program in Four Dimensions

Date Produced: 9/16/2011 Guests: Kevin Anderson, Doug Sharp, Rich Geer

The director of the Creation Research Society Van Andel Creation Research Center, Kevin Anderson, gives a talk about how recent discoveries have revealed that the human genome is so complex that it behaves like a computer program in four dimensions.

Program No: 482 Computer Program in Four Dimensions - Raw Footage

Date Produced: 9/16/2011 Guests: Kevin Anderson and Creation Research Society

This is the raw footage for the Kevin Anderson interview in 481.

Program No: 483 Argon Argon Dating

Date Produced: 9/16/2011 Guests: Doug Sharp, Rich Geer, Rich Overman

Richard Overman proposes that the Argon-Argon dating method can be recalibrated to produce dates consistent with the Biblical model.

Program No: 480 Arizona Geology Tour

Date Produced: 9/8/2011 Guests: Jim Clarke, Sal Guardina, David Vonderheide

Doug and Rich discuss the 2011 Arizona adventure with members of the Creation Research Society and Arizona Origins Science Association, interviewing Jim Clarke, Sal Guardina and David Vonderheide.

Program No: 479 The Ebla Tablets

Date Produced: 9/1/2011 Guests: Doug Sharp, Rich Geer, Rich Overman

The Ebla Tablets were in the news many years ago, and then mysteriously nothing was said about them. What happened? Rich Overman explains the story.

Program No: 478 Plants of the Bible - Long Version

Date Produced: 8/23/2011 Guests: David Oberpriller

David Oberpriller gives a tour of Boyce Thompson Arboretum in Superior AZ, describing plants of the Bible found there. THIS IS THE LONG VERSION MEANT FOR BOYCE THOMPSON.

Program No: 477 Plants of the Bible at Boyce Thompson Arboretum

Date Produced: 8/23/2011 Guests: David Oberpriller

David Oberpriller gives a tour of Boyce Thompson Arboretum in Superior AZ, describing plants of the Bible found there.

Program No: 476 Memes

Date Produced: 8/22/2011 Guests: Doug Sharp and Rich Geer

"Memes" is the term Richard Dawkins uses to describe social norms that he believes to be the result of genetics. Doug and Rich discuss the logical result of this that ultimately one who believes this must conclude that there is no basis for morality.

Program No: 475 Evolution as a Primordial Heresy

Date Produced: 8/18/2011 Guests: Doug Sharp and Rich Geer

Doug and Rich conducts a review of an article by Linda Kendall called Evolution: Primordial Heresy as the Science of Becoming God.

Program No: 474 The Ultimate Proof of Creation

Date Produced: 8/13/2011 Guests: Doug Sharp and Rich Geer

Doug and Rich offer a review of the book Ultimate Proof of Creation by Jason Lisle. The thesis is that evolutionists must borrow Christian principles of logic.

Program No: 473 Jokulhlaup at Mendenhall Glacier

Date Produced: 8/6/2011 Guests: Doug Sharp and Rich Geer

On July 21, 2011, a glacial lake burst forth through the ice at Mendenhall Glacier, causing a catastrophic flood in Juneau Alaska. I was there three days later.

Program No: 472 Another Look at the Tuba City Dinosaur Tracks

Date Produced: 7/11/2011 Guests: Doug Sharp and Rich Geer

On the Navajo Reservation in Arizona near Tuba City, there is a stand where the local Native Americans show you dinosaur tracks. There are also some human tracks in the area.

Program No: 471 The Dilemma of Distant Starlight

Date Produced: 7/9/2011 Guests: Doug Sharp, Rich Geer, Steve Miller

Doug and Rich describe the various proposals by creationists explaining the problem of distant starlight. Steve Miller is one of those who propose a model that makes sense. He shows his telescope collection.

Program No: 470 Testing Creation Theories

Date Produced: 6/14/2011 Guests: Doug Sharp and Rich Geer

Doug and Rich describe the process one goes through to examine various theories of creation and decide which one makes the most sense.

Program No: 468 New Data on Fossils

Date Produced: 6/11/2011 Guests: Doug Sharp and Rich Geer

Doug and Rich bring up to date the creationist arguments concerning fossils.

Program No: 467 Repentance Resistance

Date Produced: 6/11/2011 Guests: Doug Sharp, Rich Geer, Dan Janzen

When a person publishes or speaks on a subject, it is extremely difficult for them to change their mind, even when presented with strong evidence against his thesis.

Program No: 466 Theistic Evolution and the College Student

Date Produced: 6/11/2011 Guests: Doug Sharp, Rich Geer and Tony Feiger

Tony Feiger is a minister with Campus Crusade for Christ at Dartmouth College, and he tells about the influence of a professor on campus who promotes the idea of theistic evolution. The consequences of this belief result in a watered-down gospel.

Program No: 469 Dawkins' Diatribe

Date Produced: 6/11/2011 Guests: Doug Sharp, Rich Geer, Dan Janzen

Richard Dawkins, in his book *The God Delusion*, accuses God of all kinds of unpleasant things. But his accusations are easily explained once the problem of sin, death and suffering are also explained.

Program No: 446 Creation Connections

Date Produced: 12/18/2010 Guests: Doug Sharp and Rich Geer

Doug attended a webinar put on by New Leaf Press that talked about the new tools on the web available to disseminate information about the creation-evolution issue.

Program No: 445 Evolution Before Darwin

Date Produced: 12/15/2010 Guests: Doug Sharp and Rich Geer

The theory of evolution didn't begin with Darwin. Doug and Rich talk about the events, people and theories that led up to the acceptance of Darwin's ideas.

Program No: 465 The Monotremes

Date Produced: 9/18/2010 Guests: Doug Sharp and Rich Geer

Monotremes are egg-laying mammals with unique characteristics that defy evolution.

Program No: 464 Soluble Isotopes May Skew Radiometric Dating

Date Produced: 9/18/2010 Guests: Doug Sharp and Rich Geer

A presentation at the Creation Research Society conference supports the idea that ages obtained by radiometric dating may be skewed because the parent isotopes are more soluble in water than the daughter isotopes.

Program No: 463 Miracles are not Scientific but they are the Foundation of Science

Date Produced: 9/2/2010 Guests: Doug Sharp and Rich Geer

Doug and Rich talk about the ironic nature of miracles, that if they are too commonplace, they are taken for granted, but if they don't happen very often, they are not believed in either.

Program No: 459 The Death of Darwinism

Date Produced: 8/14/2010 Guests: Dr. Duane Gish

Dr. Duane Gish shows from the fossil record how evolution fails to explain the origin of life, in particular the refractive properties of the eye of the trilobite.

Program No: 458 Information and the Impossibility of Evolution

Date Produced: 8/14/2010 Guests: Tom Foltz

Tom Foltz explains from a computer programmer's perspective how impossible evolution is because of the quantity of information needed to be generated by random chance processes.

Program No: 461 The Fossil Record

Date Produced: 8/14/2010 Guests: Dr. Duane Gish

Dr. Duane Gish explains why the fossil record says no to evolution.

Program No: 462 Human DNA Repair and Genetic Entropy

Date Produced: 8/14/2010 Guests: Dr. Duane Gish

Dr. Duane Gish explain Dr. John Sanford's book: The Mystery of the Genome.

Program No: 460 CRS Interviews

Date Produced: 8/14/2010 Guests: Dr. Robert Carter, Daniel Schobert, Tom Foltz

Three interviews with CRS members: Dr. Robert Carter, Daniel Schobert and Tom Foltz.

Program No: 457 Mitochondrial DNA and the Human-Chimp Genome: An Update from CMI

Date Produced: 8/8/2010 Guests: Robert Carter, Doug Sharp, Rich Geer

Dr. Robert Carter discusses the new discoveries concerning Mitochondrial DNA showing a Biblical date for Eve, and the fallacies of constructing the chimpanzee genome based upon the human genome. He also gives a description of the ministry of Creation Ministries International.

Program No: 456 Dan Schobert: Persuaded by the Evidence

Date Produced: 8/8/2010 Guests: Doug Sharp, Rich Geer, Dan Schobert

Dan Schobert reviews the reasons why he is persuaded by scientific evidence that the Bible is true.

Program No: 455 Henry M. Morris Memorial Lecture: Death of Darwinism

Date Produced: 7/31/2010 Guests: Dr. Duane Gish (Long Version)

Dr. Duane Gish, at the Creation Research Society's Henry M. Morris Memorial Lecture, discusses the inability for evolution to explain the origin of life on three fronts, the origin of the universe, the fossil record and the absence of beneficial mutations.

Program No: 454 Harold Hill's Joshua's Missing Day Explanation

Date Produced: 7/19/2010 Guests: Doug Sharp and Rich Geer

In Harold Hill's book "How to Live Like a King's Kid" there is an account of a NASA computer program that calculated the rotation of the earth that supposedly found the missing day of Joshua's time in the Bible and the 40 minutes of Hezekiah's time. Doug and Rich discuss the possibility of this being programmed, and that it is best not to use this story.

Program No: 453 The Chicxulub Impact Crater

Date Produced: 7/18/2010 Guests: Doug Sharp and Rich Geer

The 112 mile diameter crater near the Yucatan Peninsula in Mexico is supposed to be support for a catastrophe that wiped out the dinosaurs. Doug and Rich give a Creationist explanation.

Program No: 452 Life in Outer Space?

Date Produced: 6/12/2010 Guests: Doug Sharp, Rich Geer, Dan Janzen

There have been a number of rehashed arguments, such as the Martian meteorite found in Antarctica, that gives the impression that life may have evolved in outer space. We discuss these various arguments and ask the question, "If we can detect intelligent life in outer space, can we use the same criteria to determine if life on earth is intelligently designed?"

Program No: 451 Is the Creator God the God of the Bible?

Date Produced: 4/30/2010 Guests: Doug Sharp and Rich Geer

Once a person decides that the world is created by an intelligent designer, how does he decide who that intelligent designer is? Why is the God of the Bible the superior choice?

Program No: 449 Slaughter of the Dissidents

Date Produced: 4/25/2010 Guests: Doug Sharp and Rich Geer

This is a review of Jerry Bergman's new book , Slaughter of the Dissidents.

Program No: 448 A New Find at Sterkfontein Caves

Date Produced: 4/17/2010 Guests: Doug Sharp and Rich Geer

Doug and Rich discuss the new Australopithecus Sediba find near the Sterkfontein caves where they visited in South Africa.

Program No: 447 The Wilberforce-Huxley Debate

Date Produced: 4/14/2010 Guests: Doug Sharp and Rich Geer

Samuel Wilberforce was bishop of Oxford, and at a meeting of scientists, debated the theory of evolution with Thomas Huxley. The popular account of this debate has Wilberforce portrayed as an obscurantist who promotes theology over science. But other accounts vary and do not show that Wilberforce actually lost the debate.

Program No: 443 The Cardiff Giant

Date Produced: 3/10/2010 Guests: Doug Sharp and Rich Geer

The Cardiff Giant was a hoax perpetrated by George Hull, an atheist who wanted to have fun with fundamentalist preachers of his day by creating a giant stone sculpture that he buried and then had dug up a year later. This hoax is similar to many that creationists face when they encounter evolutionists who create fake evidence.

Program No: 442 Those Enigmatic Neandertals

Date Produced: 2/20/2010 Guests: Doug Sharp and Rich Geer

Doug and Rich discuss Anne Habermehls article about "Those Enigmatic Neandertals" that contrast two theories about their morphology from a creationist perspective, those of Dr. Jack Cuozzo and Marvin Lubenow.

Program No: 441 Three Skulls

Date Produced: 12/17/2009 Guests: Doug Sharp, Rich Geer, Dan Janzen

Rich Geer constructed three skulls for the Creation Evidence Museum: Cro-Magnon, Neandertal and Australopithecene. These icons of evolution, when put in their proper perspective, are powerful evidence for early post-flood man, not "cave-men" or "ape-men."

Program No: 440 Evolutionists Debunk Their Own Fossils

Date Produced: 12/3/2009 Guests: Doug Sharp and Rich Geer

Lucy, Ida, Ardi and Archaeopteryx are all now debunked by their evolutionist proponents. Doug and Rich's work is easy today.

Program No: 439 Ardipithecus

Date Produced: 11/25/2009 Guests: Doug Sharp and Rich Geer

Ardipithecus is the latest in extinct ape fossils that are purported to be on their way to becoming human.

Program No: 438 The Dropped Chalk Challenge

Date Produced: 11/24/2009 Guests: Doug Sharp and Rich Geer

An Internet story about an atheist professor who challenged his class to say that they still believe in God after a semester of lecture attempting to disprove His existence, and where he dropped a piece of chalk and challenged God not to allow it to break. Doug and Rich discuss why this is probably a myth.

Program No: 437 Nebraska Man

Date Produced: 10/15/2009 Guests: Doug Sharp and Rich Geer

Nebraska man was a fossil that was presumed to be an ape-man, and it was promoted as such during the time of the Scopes trial. Although it was never brought up during the trial, promotion of this tooth as human was used to discredit William Jennings Bryan. This tooth proved to be that of a peccary.

Program No: 436 A Chick in its Shell

Date Produced: 10/8/2009 Guests: Doug Sharp and Rich Geer

Doug and Rich discuss the anatomy of the egg and the process that takes place when a chick hatches out of its shell.

Program No: 427 The Delk Track and Other Famous Creation Artifacts

Date Produced: 9/19/2009 Guests: Carl Baugh, Doug & Rich, Jyoti Chakravartty

The Delk track was found near the Paluxy River after a flood ripped up a bed of limestone and deposited the rocks on the riverbank. It is a dinosaur track that stepped into a human track. We explored the area where it was found. Carl Baugh also shows us the Meister Print, the Burdick track, the fossilized human finger, the cup in coal and the human handprint, all out of place artifacts and fossils.

Program No: 435 The Universe in Near-Real Time (with Q&A)

Date Produced: 9/6/2009 Guests: Steve Miller

Steve Miller presents the idea that we are observing the universe in near-real time, and that there is very little look-back time from the present to the creation of the universe.

Program No: 434 The Fallacy of Tolerance

Date Produced: 8/14/2009 Guests: Doug Sharp and Rich Geer

When Jesus said, "I am the way, the truth and the life. No man can come to the Father but by me" he makes the claim of deity. This creates a dilemma for those who say that all religions lead to God.

Program No: 433 Health Care and Evolution

Date Produced: 8/14/2009 Guests: Doug Sharp, Rich Geer, Dan Janzen

The new health care plan proposed by the government is the topic of discussion.

Program No: 432 Devolution

Date Produced: 8/9/2009 Guests: Doug Sharp and Rich Geer

Doug and Rich define the term "devolution" to mean the phenomena and physical laws that cause living systems to break down and go in the opposite direction of evolution.

Program No: 431 A Biblical Model for the Dispersion

Date Produced: 8/8/2009 Guests: Doug Sharp and Dan Janzen

Dan Janzen talks about the evidence from Native American tradition concerning the migration of people groups from various places to the new world after Noah's flood.

Program No: 430 The Prayer Experiment

Date Produced: 7/18/2009 Guests: Doug Sharp and Rich Geer

Michael Shermer mentions in a Scientific American article of an experiment done concerning answered prayer, claiming that there was no difference between those prayed for and those not. Doug and Rich beg to differ, and ask the question how you could conduct such an experiment praying the prayer of faith, but being an atheist.

Program No: 429 Dragons in the Skies

Date Produced: 7/15/2009 Guests: Doug Sharp, Rich Geer, Dan Janzen

Reports from all over the world tantalize the imagination with the idea that flying dragons, pterodactyls, could still be alive today.

Program No: 428 Strange Fire in the Earth

Date Produced: 7/11/2009 Guests: Doug Sharp, Rich Geer, Erich von Fange

"Strange Fire in the Earth" is the title of an article Dr. von Fange wrote in 1975 for the Creation Research Society Quarterly. He documents evidence from ancient history of fiery judgments upon peoples of the earth as recorded in the Bible.

Program No: 425 Rhamphorichoid Pterosaurs in Papua New Guinea

Date Produced: 6/15/2009 Guests: Doug Sharp and Rich Geer

Reports of sightings of what the natives in Papua New Guinea call the "Ropen" are discussed. Researchers who authored an article in the CRSQ believe them to be rhamphorichoid pterosaurs.

Program No: 424 Emma Darwin: Candle in the Night

Date Produced: 5/25/2009 Guests: Doug Sharp & Rich Geer

Emma Darwin wrote two works, copies of which were loaned to Dr. Carl Baugh for his 25th anniversary of the opening of his creation museum. Her Bible was also on display there at that celebration. Emma's spiritual life was evidence from her testimony in these books, and the struggle she had with her husband who did not share her faith, is revealed in these writings.

Program No: 423 Darwin Misunderstood?

Date Produced: 5/25/2009 Guests: Doug Sharp and Rich Geer

Michael Shermer, in his Skeptic article in Scientific American, laments that Darwin is misunderstood, in that natural selection does not have any direction or application in the sense that nature is red in tooth and claw and that it cannot be applied the way it was with Nazism or Communism. But if that were true, and adequate evidence indicates that it isn't, it removes any explaining power that natural selection might have in showing that evolution has occurred in the first place.

Program No: 422 Chimp-Human DNA Similarities

Date Produced: 5/12/2009 Guests: Doug Sharp and Rich Geer

Scientific American had an article that talked about the similarities between chimp and human DNA. The facts reveal that over 15 million differences exist and the similarities are evidence for a common designer, not a common ancestor.

Program No: 421 Dinosaur Eggs Buried in Noah's Flood

Date Produced: 5/9/2009 Guests: Ian Juby, Doug Sharp, Rich Geer

Ian Juby of the Traveling Creation Museum of Canada visits the Revolution Against Evolution with his models of dinosaur eggs and an explanation of how they got fossilized in Noah's flood.

Program No: 420 Evolution in a Bottle?

Date Produced: 4/24/2009 Guests: Doug Sharp and Rich Geer

Evolution in a Bottle was the title of a Scientific American article proposing an RNA origin of life and an experiment that was done at Scripps that showed RNA replicating. However the article gives creationists a gift in the end in admitting that this scenario had such a small chance of happening that it was practically impossible.

Program No: 419 Interview with Dr. John Morris at ICR

Date Produced: 4/23/2009 Guests: John Morris, Jyoti Chakravartty, Sharp and Geer

John Morris of the Institute for Creation Research tells of the move of their facilities to Dallas, and the successes they have enjoyed with the RATE, GENE and FAST projects.

Program No: 418 The Miller-Urey Experiment

Date Produced: 4/19/2009 Guests: Doug Sharp and Rich Geer

Doug and Rich discuss the 1953 Miller-Urey experiment claiming to produce the precursors of life from a primitive atmosphere.

Program No: 417 Dawkins and the "Poor Design" of the Eye

Date Produced: 3/22/2009 Guests: Doug Sharp and Rich Geer

Rich attends the Dawkins lecture at MSU and comments on his attempt to explain why purpose is apparent and not real. Doug and Rich discuss the complexity of the design of the eye and the reason why the retina is placed in "backwards".

Program No: 416 The Hearing Ear

Date Produced: 3/1/2009 Guests: Doug Sharp and Rich Geer

Doug and Rich discuss the video by David Menton "The Hearing Ear and the Seeing Eye."

Program No: 415 Evolution at Work

Date Produced: 3/1/2009 Guests: Doug Sharp and Dan Janzen

Doug and Dan discuss the Scientific American article that talks about how evolution is used every day in the workplace (but it isn't).

Program No: 413 40 Days for Life

Date Produced: 2/10/2009 Guests: Nancy Kujawa, Doug Sharp, Rich Geer

Nancy Kujawa and her colleagues are organizing 40 Days for Life, a prayer vigil concerning the abortion mills in mid Michigan.

Program No: 414 Those Tricky Creationists

Date Produced: 2/3/2009 Guests: Doug Sharp and Rich Geer

The Scientific American issue honoring Darwinism had an article called "Creationist's Latest Tricks" that contains typical arguments concerning the strategy of creationists.

Program No: 412 Our Old Body

Date Produced: 1/22/2009 Guests: Doug Sharp and Rich Geer

Scientific American published an article called "Our Old Body" which presents the routing of blood vessels and nerves as a tangled mess that weaves a tortuous path through the body, much like plumbing in an old house. Doug and Rich challenge this anatomist to surgically improve it.

Program No: 411 Scientific American Evolution Issue

Date Produced: 1/19/2009 Guests: Doug Sharp and Rich Geer

Scientific American came out with their January 2009 issue honoring Darwin. Doug and Rich begin exploring the vast amount of material presented by this issue in light of the Biblical creation model.

Program No: 410 Presuppositionalism Versus Evidentialism

Date Produced: 12/15/2008 Guests: Doug Sharp, Rich Geer, Ron Dudak

Ron Dudak teaches an on-line course for Answers in Genesis. He discusses the difference between Presuppositionalism, which teaches that the Bible must be the starting point for all truth, and Evidentialism, which teaches that truth can be determined independently from the knowledge of God and God may become known through evidence alone.

Program No: 409 Iolani Palace and Hawaiian History

Date Produced: 11/20/2008 Guests: Doug Sharp and Rich Geer

A visit to the Iolani Palace in Honolulu reveals the effect of Christian missionaries upon Hawaiian government and history.

Program No: 408 Order from Disorder?

Date Produced: 11/15/2008 Guests: Doug Sharp and Rich Geer

Doug and Rich review an article in the Scientific American that claimed on the surface to have solved the mystery of life in light of the second law of thermodynamics, but presented no evidence.

Program No: 407 The Committee

Date Produced: 11/4/2008 Guests: Doug Sharp, Clay Cornelius

Clay Cornelius portrays his life behind the scenes as a committee of personalities that debate what to do in various situations in his life. Pleasure was chairman of the board, and Logic, Finance, Life, Society, Competition, Conscience, Happiness, Health took care of various part of his life. As Pleasure cause situations that brought trouble, it was apparent that Alcohol, Pot and Lust were really in control. Clay tells the story how Life debated Logic on the Origin of Life issue and how it played in the ultimate decision to get on God's program.

Program No: 406 Christianity: A Cause of Modern Science

Date Produced: 8/20/2008 Guests: Eric Snow

Eric Snow examines the theses of Jaki, Duhem and Merton which advocate that modern science would not have been possible if it weren't for a Christian foundation.

Program No: 405 Evolution in the Public School

Date Produced: 8/16/2008 Guests: Joseph Mastropaolo

Joseph Mastropaolo exposes the religious nature of evolution as a Greek Gaea religion, and suggests that teaching of evolution is illegal based upon that premise.

Program No: 404 The Bible, Chinese Characters and Sages

Date Produced: 8/8/2008 Guests: Jim Orme

Jim Orme describes at the RAE conference legends that uphold the Bible from Chinese sages, and the story of Genesis in the Chinese characters.

Program No: 403 Human Evolution at the Smithsonian

Date Produced: 7/23/2008 Guests: Doug Sharp and Rich Geer

The exhibit at the Smithsonian that depicts human evolution caused a Christian family to write a letter in protest. Doug and Rich reviews the response from the institution and reveals the underlying issues and biases in this state-sponsored attack on Christian values.

Program No: 402 Why Mutations Result in Degradation of the Genome

Date Produced: 7/20/2008 Guests: Dr. Jerry Bergman

Dr. Bergman analyzes the probability of beneficial mutations occurring, and the role mutations play in cancer. He concludes that mutations degrade the genome rather than improve it.

Program No: 401 Mock Debate: Creation is Religion but Evolution is Science

Date Produced: 7/18/2008 Guests: Laurence Tisdall and Joseph Mastropaolo

Laurence Tisdall prepares the case for evolution on the topic of Creation is Religion but Evolution is Science, using common arguments for evolution, whereas Joseph Mastropaolo defends creation by showing that evolution is a derivative of ancient Greek religion.

Program No: 400 A Tale of a Snail

Date Produced: 7/4/2008 Guests: Doug Sharp and Rich Geer

Doug Sharp talks about the left-handed amino acid dilemma, which gives the odds of producing a viable protein with all left-handed amino acids as one chance in 10 to the 123 power. He sets up a comparison between an experiment cranking out combinations of proteins at 400 tons per second to a snail whose job is to move the entire earth to the known edge of the universe and back at a rate of one millimeter in a million years one molecule at a time. The snail wins the race.

Program No: 399 The Meaning of the Tower of Babel

Date Produced: 6/30/2008 Guests: Anne Habermehl

Anne Habermehl presents her ideas concerning the Tower of Babel, Ziggurats, Nimrod and the dispersion of languages and cultures.

Program No: 398 Spirit Lake

Date Produced: 6/28/2008 Guests: Bruce Malone

Bruce Malone presents the floating log mat theory of coal formation aptly demonstrated by the eruption of Mount St. Helens and the logs in Spirit Lake.

Program No: 396 Mock Debate Review

Date Produced: 6/19/2008 Guests: Sharp, Janzen, Geer, Tisdall, Mastropaolo

Doug, Rich and Dan conduct a review of the mock debate at the RAE conference between Laurence Tisdall (taking the side of evolution) and Joe Mastropaolo (taking the side of creation). Debate tactics are identified and weighed for their effectiveness.

Program No: 395 Evolution and the Work Ethic

Date Produced: 5/12/2008 Guests: Doug Sharp, Alan Flowers

Alan Flowers is a pastor of a church in Gowen, Michigan, and he comes on the Revolution Against Evolution TV show to discuss how evolution has affected the work ethic in America.

Program No: 394 Creation Meetings in India

Date Produced: 5/5/2008 Guests: Doug Sharp, Rich Geer, Jyoti Chakravartty

Jyoti Chakravartty tells about various meetings with Dr. Andy MacIntosh in India.

Program No: 393 Creation Science Association India

Date Produced: 5/5/2008 Guests: Doug Sharp, Rich Geer, Jyoti Chakravartty

Jyoti Chakravartty is the director of the Creation Science Association India. He tells what it is like to share the message of creation with Indian intellectuals.

Program No: 392 The Dr. Abraham Affair

Date Produced: 4/22/2008 Guests: Doug Sharp and Rich Geer

Dr. Abraham was fired from Woods Hole Oceanographic Institute because he questioned evolution.

Program No: 391 No Intelligence Allowed

Date Produced: 4/22/2008 Guests: Doug Sharp, Rich Geer, Dan Janzen

A review of the movie, Expelled: No Intelligence Allowed.

Program No: 390 The Left-Hand Amino Acid Dilemma

Date Produced: 4/15/2008 Guests: Doug Sharp and Rich Geer

All of life is made up of all left-handed amino acids, though if you make it in a test tube, you get an equal mixture of right and left-handed conformations. Evolution fails to explain this phenomenon.

Program No: 389 Deucalion: A Greek Flood Tradition

Date Produced: 3/22/2008 Guests: Doug Sharp, Rich Geer, Dan Janzen

Doug, Rich and Dan talk about ancient traditions concerning a world-wide flood and the implications for evolution.

Program No: 388 Dinosaurs!

Date Produced: 3/22/2008 Guests: Doug Sharp and Rich Geer

Do you remember your first dinosaur book as a kid? Doug and Rich talk about the effect the evolutionary bias has in the dinosaur picture books.

Program No: 387 Eternity

Date Produced: 3/18/2008 Guests: Doug Sharp and Rich Geer

Doug and Rich talk about Eternal Life and what the possibilities mean.

Program No: 386 Tarzan, Frankenstein and Star Trek

Date Produced: 3/11/2008 Guests: Doug Sharp and Rich Geer

Doug and Rich explore the evolutionary bias that is presented in modern movies.

Program No: 385 Mount St. Helens

Date Produced: 2/24/2008 Guests: Doug Sharp, Rich Geer, Bruce Malone

Bruce Malone describes the utter destruction wrought by the explosion at Mount St. Helens as a miniature laboratory that models Noah's flood.

Program No: 384 Native American Artifacts

Date Produced: 2/18/2008 Guests: Doug Sharp, Rich Geer, Dan Janzen

Dan Janzen shows Native American artifacts from Peru and the Americas that depicts traditions that parallel the Biblical tradition.

Program No: 383 A Museum Dream

Date Produced: 2/16/2008 Guests: Doug Sharp, Rich Geer, Dan Janzen

Dan and Rich show the collection of artifacts making up the beginning of a traveling creation museum.

Program No: 382 Creation and the KJV

Date Produced: 2/5/2008 Guests: Doug Sharp, Rich Geer, Dan Ford

Dan Ford compares the accuracy and significance of the King James Version of the Bible to more modern translations.

Program No: 381 Expelled: The Movie

Date Produced: 1/31/2008 Guests: Doug Sharp and Dan Janzen

Ben Stein's movie Expelled is an expose of the problems of evolutionary bias in the academic world.

Program No: 380 Six Months in Jail

Date Produced: 1/31/2008 Guests: Doug Sharp, Rich Geer, Dan Janzen

What if you were given a test on whether or not your worldview was right, and if you were wrong, you were to spend six months in jail?

Program No: 378 You are Very Valuable!

Date Produced: 1/4/2008 Guests: Doug Sharp and Rich Geer

Doug and Rich contrasts the message of creation, which proclaims the ultimate worth of the individual to the message of evolution, where life has no meaning.

Program No: 377 Economics

Date Produced: 1/4/2008 Guests: Doug Sharp and Rich Geer

Doug and Rich talks about the article in Scientific American that compares economic change to evolutionary processes.

Program No: 375 Return to South Africa

Date Produced: 12/26/2007 Guests: Doug Sharp and Rich Geer

Doug and Rich return to South Africa to discuss the trip they took in 2005.

Program No: 374 Forensic Science

Date Produced: 12/26/2007 Guests: Doug Sharp, Rich Geer, Dan Janzen

Doug and Rich visits Tombstone, Arizona and the Superstition Mountains. This causes them to reflect on the difference between Forensic Science, which determines historical events based upon evidence found in the present, and Empirical Science, which is observable, testable, and repeatable.

Program No: 376 Diamonds: The Creationist's Best Friend

Date Produced: 12/26/2007 Guests: Doug Sharp and Rich Geer

Doug and Rich discuss the significance of finding Carbon 14 in diamonds, a talk about their visit to the Crater of Diamonds in Arkansas.

Program No: 373 The Answers in Genesis Museum

Date Produced: 12/20/2007 Guests: Doug Sharp, Rich Geer, Dan Janzen

The RAE Team visits the Answers in Genesis museum and reviews the experience.

Program No: 372 The Soft-Gap Theory

Date Produced: 11/17/2007 Guests: Doug Sharp, Rich Geer, Dan Janzen

The "Soft-Gap" theory attempts to explain the problem of distant starlight and the speed of light by promoting the belief that the universe is old and timeless, but the creation of the solar system is recent, within 6,000 years.

Program No: 370 Texas Tracks and Artifacts

Date Produced: 11/5/2007 Guests: Doug Sharp, Rich Geer, Dan Janzen

This is a review of Robert Helfinstine's book "Texas Tracks and Artifacts," which is an exhaustive treatment of the Paluxy River dinosaur and human footprints found in Cretaceous rock.

Program No: 369 Survival of the Fittest

Date Produced: 10/25/2007 Guests: Doug Sharp and Rich Geer

False Doctrines of Evolution: Survival of the Fittest doesn't match the evidence theologically and scientifically.

Program No: 368 Is Man Good by Nature?

Date Produced: 10/22/2007 Guests: Doug Sharp, Rich Geer, Dan Janzen

The Religion of Evolution: One of the tenets is that man is by nature good and improves over time. This is contrary to observation and the Bible.

Program No: 367 Chance is not a Creator

Date Produced: 10/16/2007 Guests: Doug Sharp and Rich Geer

The false religious doctrines of evolution are discussed. The first is that chance is a creative mechanism responsible for the evolution of life. This is easily refuted.

Program No: 366 The Appendix is not Vestigial

Date Produced: 10/15/2007 Guests: Doug Sharp and Rich Geer

Recent articles in the Chicago Tribune and other newspapers around the world report that the function of the appendix has been discovered: to reboot the good germs that dwell in the digestive system.

Program No: 364 Hypothetico-Deductive Science

Date Produced: 8/31/2007 Guests: Doug Sharp and David Bradbury

David is compiling a case for teaching the difference between Empirical Science and Hypothetico-Deductive Science, and the fact that evolutionists confuse the two types of science and tend to give them the same value.

Program No: 363 Morality is Christian

Date Produced: 8/28/2007 Guests: Doug Sharp, Dan Janzen, Rich Geer

Doug, Dan and Rich talk about the concept of morality and how if an atheist uses the term, he is simply borrowing the concept from Christianity.

Program No: 362 It Takes Faith to Move Mountains

Date Produced: 8/7/2007 Guests: Doug Sharp and Rich Geer

The upside-down geology of Red Rock Canyon and Valley of Fire is examined from a Google Earth perspective.

Program No: 361 Atheistic Morality?

Date Produced: 8/1/2007 Guests: Doug Sharp and Rich Geer

Doug and Rich examine what passes for morality for atheists, and speculates whether or not there is really such a thing.

Program No: 360 Big Valley Creation Museum

Date Produced: 7/25/2007 Guests: Doug Sharp, Ian Juby

Ian Juby describes the work done on the Big Valley Creation Museum in Alberta.

Program No: 359 The Joggins Fossil Cliffs

Date Produced: 7/18/2007 Guests: Doug Sharp, Rich Geer with Ian Juby

The Joggins Fossil Cliffs in Nova Scotia are excellent examples of rapid flood deposition with polystrate fossil tree trunks that extend through multiple strata.

Program No: 358 Days of Peleg

Date Produced: 7/14/2007 Guests: Doug Sharp, Rich Geer, review of Jon Saboe book

Doug and Rich reviews Jon Saboe's historical novel: The Days of Peleg.

Program No: 357 Crypto Archeology

Date Produced: 7/10/2007 Guests: Doug Sharp, Rich Geer, Dan Janzen

Dan Janzen displays a new shipment of replica pots from Peru depicting dinosaurs and discusses their significance for the creation-evolution issue.

Program No: 356 The Salem Witch Trials

Date Produced: 6/20/2007 Guests: Doug Sharp and Rich Geer

Doug visits the Salem Witch Museum and talks about the effect the Salem Witch Trials had on the credibility of the Christian faith, and what the lessons were that were learned.

Program No: 355 Tornado in a Junkyard

Date Produced: 6/17/2007 Guests: Doug Sharp and James Perloff

Doug Sharp interviews James Perloff, author of the books Tornado in a Junkyard and The Case Against Darwin.

Program No: 350 The Monkey Trial

Date Produced: 6/12/2007 Guests: Doug Sharp, Rich Geer with Fred Foote

On his web site <http://themonkeytrial.com> Fred Foote has documented the differences with what actually happened at the Scopes Trial in 1925 against what is portrayed in the popular film and play, "Inherit the Wind." He finds that the popular portrayal of what happened was greatly distorted.

Program No: 354 COMETS

Date Produced: 6/12/2007 Guests: Doug Sharp and Rich Geer

Doug and Rich discuss the value of the arguments creationists use concerning the short life of comets in relationship to the age of the solar system.

Program No: 353 Commemorative Collection: Inherit the Wind

Date Produced: 5/11/2007 Guests: Doug Sharp and Rich Geer

The Commemorative Collection was produced by a marketing company for the Broadway play Inherit the Wind starring Christopher Plummer and Brian Dennehy. They contacted the RAE web site for permission to use Doug Sharp's article "Creation is Scientific but Evolution is Religious." The result was a professional publication that succeeded in presenting both sides of the issue very well.

Program No: 352 Lucy: The Magic is Gone

Date Produced: 4/30/2007 Guests: Doug Sharp and Rich Geer

Experts have concluded, based up evidence from the skull and jawbone, that the australopithecene Lucy is not on the line of becoming human.

Program No: 351 Christianity: A Reasonable Faith

Date Produced: 4/21/2007 Guests: Doug Sharp, Rich Geer, Dan Janzen

Doug, Rich and Dan discuss the powerful evidences for the Bible being the word of God and even if the evolutionary theory sounds reasonable, that does not necessarily make Christianity unreasonable.

Program No: 348 Random Designer

Date Produced: 3/31/2007 Guests: Doug Sharp and Rich Geer

This is a review of the book "Random Designer" by Richard G. Colling, Ph.D. who is a theistic evolutionist.

Program No: 347 Global Warming?

Date Produced: 3/29/2007 Guests: Doug Sharp, Rich Geer, Dan Janzen

Doug, Rich and Dan discuss assumptions, implications and presumptions concerning the theories about global warming, and ask the question whether or not this is a real threat.,

Program No: 349 Paradigm Inertia

Date Produced: 3/22/2007 Guests: Doug Sharp and Rich Geer

A person's thoughts, actions and beliefs are made up of a paradigm, or worldview, that is shaped by his or her upbringing, prejudices, teaching, and environment. Old ideas, habits, and ways of doing things have their own inertia in that they keep going even though their foundations may be weak or without basis.

Program No: 346 Intelligent Life in Outer Space?

Date Produced: 3/11/2007 Guests: Doug Sharp and Dan Janzen

Doug and Dan discuss the prospects of finding intelligent life in outer space, from both a scriptural and scientific view.

Program No: 345 Stinking Thinking

Date Produced: 2/26/2007 Guests: Doug Sharp, Dan Janzen

Doug and Dan talk about logical fallacies, how to detect them and watch out for them.

Program No: 344 Essential Christianity

Date Produced: 2/19/2007 Guests: Doug Sharp, Rich Geer, Dan Janzen

An internet discussion of whether the doctrine of young-earth creation is essential to the Christian faith, and what the hallmarks of a Christian really are.

Program No: 343 Intelligent Design and Science Instruction

Date Produced: 2/19/2007 Guests: Doug Sharp with Dr. G. Charles Jackson

Dr. Charles Jackson is an educator who instructed biology teachers how to deal with controversial subjects such as sex education, cloning, stem cell research, global warming and intelligent design. He now delivers creation seminars full time.

Program No: 342 Old Testament Timeline #9: The Persian Empire to Jesus

Date Produced: 2/12/2007 Guests: Doug Sharp and Rich Geer

Rich Geer finishes the series on the Old Testament timeline by tracing the history of the Persian Empire to Jesus.

Program No: 341 Old Testament Timeline #8: Ezra, Nehemiah, Esther

Date Produced: 2/12/2007 Guests: Doug Sharp and Rich Geer

Rich Geer presents the Old Testament timeline concerning Ezra, Nehemiah and Esther.

Program No: 340 Old Testament Timeline #7: More about the Kings

Date Produced: 2/12/2007 Guests: Doug Sharp, Rich Geer, Dan Janzen

Rich Geer presents the Old Testament timeline concerning the period of the Divided Kingdom of Israel.

Program No: 339 Old Testament Timeline 3 Continued: Abraham

Date Produced: 1/22/2007 Guests: Doug Sharp, Dan Janzen, Rich Geer

Rich Geer continues his explanation of the importance of understanding the timeline in light of the scriptural references to Abraham.

Program No: 379 Good Atheists?

Date Produced: 1/15/2007 Guests: Doug Sharp, Rich Geer, Dan Janzen

An article in the New Scientist magazine laments the fact that some of the candidates talk about the issue of religion but tend to leave out that a porportion of the population have no religious belief at all. They are concerned that religion is labeled "good" and skepticism is labeled "bad."

Program No: 338 Top Ten Questions to Ask Your Teacher

Date Produced: 12/26/2006 Guests: Doug Sharp, Rich Geer, Dan Janzen

Doug, Rich and Dan produce a list of evolutionary teacher stumpers.

Program No: 337 Science to Replace Religion?

Date Produced: 12/26/2006 Guests: Doug Sharp and Rich Geer

A conference of atheists in California discuss the feasibility of science replacing religion.

Program No: 336 Misconceptions Concerning Creationists

Date Produced: 11/17/2006 Guests: Doug Sharp, Rich Geer, Dan Janzen

Doug, Rich and Dan discuss the common misconceptions evolutionists have concerning creationists.

Program No: 334 The History Project

Date Produced: 11/9/2006 Guests: Doug Sharp, Rich Geer, Darrell White

Darrell White is the author of a computer application that allows you to view the entire world history on the map as the borders of countries change with time. There is a mechanism to start at a date and scroll through the dates watching the events occur. This application is available for sale through www.history-project.org.

Program No: 335 Negwegon State Park

Date Produced: 11/2/2006 Guests: Doug Sharp, Dan Janzen

Doug and Dan take a trip to Negwegon State Park and the Alpena area to investigate Indian ruins and stone disk depicting Mishipishu, the monster in the lake feared by the Native Americans.

Program No: 333 Michigan Copper

Date Produced: 10/29/2006 Guests: Rich Geer, Dan Janzen, Fred Rydholm

Fred Rydholm is the author of the book "Michigan Copper" researching the dispersion of copper mined in Michigan to various parts of the world. This is interesting in that it matches the assertion that people from Europe visited America long before Columbus.

Program No: 328 Jyoti Chakravartty at Mount Hope Church Gaylord

Date Produced: 8/28/2006 Guests: Jyoti Chakravartty

Jyoti Chakravartty is the leader of the Creation Science Association India, and gives his testimony at Mount Hope Church in Gaylord Michigan.

Program No: 327 Old Testament Timeline #3: Abram to Egypt

Date Produced: 8/25/2006 Guests: Doug Sharp, Rich Geer, Dan Janzen

Rich Geer's timeline of the old testament covering Abram to Egypt.

Program No: 325 Old Testament Timeline #1: The Patriarchs

Date Produced: 8/19/2006 Guests: Doug Sharp, Rich Geer

Rich Geer describes the timeline in the old testament in Genesis that deals with the partriarchs from Adam to Noah.

Program No: 324 Me-she-pe-shiw

Date Produced: 8/19/2006 Guests: Doug Sharp, Dan Janzen, Rich Geer

The RAE Adventure takes us to Lake Superior Provincial Park where there are Native American pictographs that resemble dinosaur-like creatures. These creatures are called Me-she-pe-shiw by the Indians, and this is where the Mississippi River gets its name.

Program No: 321 A Shrinking Date For Eve

Date Produced: 6/6/2006 Guests: Doug Sharp, Rich Geer, Dan Janzen

This program discusses the Mitochondrial Eve from whom all humans descended and how the date for Eve is shrinking.

Program No: 318 Fielding Questions from a Student

Date Produced: 6/3/2006 Guests: Kevin Rich, Rich Geer, Skyler

Kevin Rich and Rich Geer fields questions from home school student Skyler.

Program No: 319 The Great Debate

Date Produced: 6/3/2006 Guests: Doug Sharp, Rich Geer, Dan Janzen

Doug Sharp plays the role of an evolutionist in a debate with Dan Janzen, taking the creationist side, with Rich Geer as the moderator.

Program No: 317 Desert Life

Date Produced: 5/22/2006 Guests: Doug Sharp and Rich Geer

It is amazing what kind of life thrives in the desert. Doug and Rich discuss living creatures and plants that by their unique design are able to survive and multiply.

Program No: 315 Dr. Henry M. Morris Interview

Date Produced: 4/29/2006 Guests: Doug Sharp, Dr. Henry M. Morris

Doug Sharp interviews Dr. Henry M. Morris at the Institute for Creation Research in San Diego, and learns the early history of the creation-evolution debate.

Program No: 312 A Tribute to Dr. Henry M. Morris

Date Produced: 4/28/2006 Guests: Doug Sharp, Rich Geer, Dan Janzen, Henry M. Morris

The Revolution Against Evolution pays tribute to Dr. Henry M. Morris, one of the founding fathers of the creation movement.

Program No: 310 Intelligent Design in Missions

Date Produced: 3/15/2006 Guests: Doug Sharp, Rich Geer, Tony Feiger

Tony Feiger is a missionary to Russia and also to the college campuses. He sees the importance of taking the intelligent design issue to the next step in explaining the gospel of Jesus Christ.

Program No: 313 Arguments Creationists Should Not Use

Date Produced: 2/21/2006 Guests: Doug Sharp, Rich Geer, Kevin Rich

There are a number of arguments that have often been used by creationists that are of questionable value and should not be used.

Program No: 308 Words Related to Creation and Evolution

Date Produced: 2/14/2006 Guests: Doug Sharp, Rich Geer, Dave Bradbury

Dave Bradbury is working on a project to create a glossary of terms related to creation and evolution, and points out that the majority of the debate has to do with definition of terms.

Program No: 307 Native American Flood Legends

Date Produced: 2/10/2006 Guests: Rich Geer, Dan Janzen, Teresa Janzen

Native Americans have legends about the flood, the tower of Babel and dinosaurs that need to be considered when comparing historical data with evolutionary dogma.

Program No: 365 No Member Left Behind

Date Produced: 9/25/2005 Guests: Doug Sharp, Rich Geer, Dan Janzen

The concept of No Member Left Behind is focusing on helping church members acquire the essentials of the Christian faith.

Program No: 287 Adventure at Kruger National Park

Date Produced: 8/13/2005 Guests: Dr. Hennie Mouton, Koos Van der Westhuyzen

Doug Sharp and Rich Geer travel with their South African hosts, Dr. Hennie Mouton, his wife Ellison, and Koos Van der Westhuyzen. As Doug and Rich recount their experience viewing elephants, hippos, crocodiles, giraffes, hyenas, wild dogs, kudu, monkeys and baboons, they answer questions concerning the cycle of life in nature, and the creation that groans while it waits for redemption in the kingdom to come.

Program No: 280 The Sterkfontein Caves and Littlefoot

Date Produced: 6/20/2005 Guests: Doug Sharp and Rich Geer

The Sterkfontein Caves, near Johannesburg, South Africa is known for its collection of australopithecene fossils. Doug and Rich visited this spot and found some interesting facts that help the creation paradigm.

Program No: 257 Texas Dinosaur and Human Tracks

Date Produced: 9/11/2004 Guests: Doug Sharp, Rich Geer, David Hall, Carl Baugh

Local Texans from the Glen Rose area describe their experiences concerning the excavation of dinosaur and human tracks found in the Paluxy river bed. Dr. Carl Baugh leads an excavation of these tracks.

Program No: 197 Steve Miller's Telescopes

Date Produced: 10/16/2001 Guests: Steve Miller

At the Creation 2001 conference, Steve Miller explains how his 20" Newtonian reflector telescope works, and reasons why he believes in a young solar system.

Program No: 195 Why Should a Christian Study Astronomy?

Date Produced: 9/20/2001 Guests: Dr. Danny Faulkner

Dr. Danny Faulkner, professor of astronomy, shows why the study of the sun, moon, solar system and stars has relevance for the Christian. Dr. Faulkner is not afraid to tackle tough questions about the origin of the universe, and he shows that the earth - moon system is unique in the solar system having features that only could be designed by God.
