#717 Program Name: Timeline 2: Noah

Guests: Doug Sharp and Rich Geer

YouTube Link: https://youtu.be/xJHD_enzU6Q

The life of Noah is very important in understanding the timeline of Biblical chronology. Noah's life represents 1/6 of human history since Adam, and understanding how he fits into the scheme of things helps us know why Jesus came to redeem us.

#716 Program Name: Timeline 1: Adam to Noah

Guests: Doug Sharp and Rich Geer

YouTube Link: <https://youtu.be/ZcYEHggupR8>

Rich Geer's research concerning the timeline of the Old Testament gives a recent date for the events of creation in the Bible. This video discusses the timeline from Adam to Noah and why it is important.

#715 Program Name: Fossil Forensics

Guests: Doug Sharp and Rich Geer

YouTube Link: <https://youtu.be/tha63uRqFWY>

Forensics is the branch of science that uses evidence found in the present to speculate upon what might have happened in the past. Like the investigation of a crime scene, the further in time back the occurrence took place, the less evidence of the event is likely to remain. Evolution is a speculation of what happened millions of years ago based upon fossils found in the present. Jerry Bergman starts his evaluation of fossils based upon two complex features commonly found: teeth and feathers.

#714 Program Name: The Miracle of the Atlas

Guests: Doug Sharp and Rich Geer

YouTube Link: <https://youtu.be/dO6OMMmoXew>

The atlas is the top vertebra of the spine, and research by Dr. Damadian and Dr. Rosa is showing that misalignment of the atlas blocking the flow of cerebral spinal fluid can manifest itself in various forms of brain disease. Carol Geer's case is that her atlas was 18 degrees out of alignment and the fluid was backed up in her brain causing her brain ventricles to swell up and cause her to be a quadriplegic. After Dr. Rosa reset her atlas, we are tracking her progress toward recovery.

#713 Program Name: A New Brain Disease Breakthrough?

Guests: Dr. Scott Rosa, Doug Sharp, Rich Geer

YouTube Link: <https://youtu.be/ctAWFYFa1qc>

An interview with Dr. Scott Rosa who is doing cutting edge brain disease research with Dr. Raymond Damadian, inventor of the MRI. He is finding that restriction of the cerebral spinal fluid when the top axial vertebra is rotated is the cause of multiple brain diseases such as Parkinson's, MS, ALS, Alzheimers and autism. After a week of doing a special chiropractic adjustment on Carol who is Doug's sister and Rich's wife, she is showing signs of recovery from quadriplegia.

#712 Program Name: Which God is the Right God?

#710 Program Name: Why Should Christians be Concerned About Evolution?

Guests: Doug Sharp, Rich Geer, Jeff Conklin

YouTube Link: <https://youtu.be/dsrQtHjZp10>

Jeff Conklin talks about the negative effect of evolution on the basic doctrines of Christianity. Was there a literal Adam and Eve? If they were simply myths or legend, and if the first eleven chapters of Genesis are questionable, how can we explain the goodness of God, the origin of sin and death and the need for Jesus Christ the savior? Jesus himself believed in the historical fact of the fall of Adam, and that is why he came to redeem us. Evolution erodes the foundation of the Christian faith.

#709 Program Name: Neanderthal and Chain Maille Armor

Guests: Doug Sharp and Rich Geer

YouTube Link: <https://youtu.be/kUxrHA64TzM>

A reference in the book Revolution Against Evolution concerning the finding of Neanderthal buried alongside chain maille armor and spear points was challenged by evolutionists about 20 years ago. Doug Sharp revisits the story of tracing the citation back to its original reference and the implications of the story.

#708 Program Name: Evolution's Regression Test

Guests: Doug Sharp, Rich Geer, Derek Marshall

YouTube Link: <https://youtu.be/yqvgZzU9QfM>

Derek Marshall takes his experience with programming machine tools and applies it to the problem of creating evolution's genetic engineering software. He shows that evolution is scientifically impossible, statistically impossible, mathematically impossible and logically impossible.

#707 Program Name: Wilberforce's Review

Guests: Doug Sharp and Rich Geer

YouTube Link: <https://www.youtube.com/watch?v=wOUFZKEU-Bg>

Samuel Wilberforce was the bishop of Winchester in England, son of William Wilberforce, the man who was responsible for ending the slave trade in England. Samuel was famous for debating Thomas Huxley concerning Darwin's theory of evolution, and his written review of Darwin's work in 1860 is the subject of this show.

#704 Program Name: Differences Between Apes and Humans

Guests: Doug Sharp and Rich Geer

YouTube Link: <https://youtu.be/04s5EgluxvQ>

In their book, Human Evolution Taught in the Public Schools, the first chapter describes the 12 major differences between apes and humans and how the claim that they are 98% similar is totally bogus.

#703 Program Name: Are we 98 Percent Chimp?

Guests: Doug Sharp and Rich Geer

YouTube Link: <https://youtu.be/yAyjv0bNkR4>

A team of researchers found that the number one question high school students have about evolution is the idea humans evolved from chimps. In their book Debunking Human Evolution Taught in the Public Schools, one of the chapters deals with the notion that the human and chimp genomes are similar by 98%. This is totally untrue, and we discuss where that idea comes from and why it is a lie.

#702 Program Name: Does Water Flow Uphill?

Guests: Doug Sharp and Rich Geer

YouTube Link: <https://youtu.be/tvd6smWoUsM>

Many ideas have been proposed for the formation of the Grand Canyon, but the physical impossibility of water flowing uphill causes us to question the idea that the Colorado River cut the canyon over millions of years. If you leave the Grand Canyon South Rim toward Cameron, you descend in elevation thousands of feet. A catastrophic flood is a better explanation.

#701 Program Name: Existentialism

Guests: Doug Sharp and Rich Geer

YouTube Link: <https://youtu.be/SOGtPr8zmo>

Existentialism is a philosophy that originated in the early nineteenth century with the Danish philosopher Soren Kierkegaard. This philosophy defined truth that is relative to the individual and places an emphasis on free choice. Other existentialists have taken this to its ultimate conclusion and framed it within an atheistic worldview. Various versions of existentialism are discussed and the negative fruits that are born as a result.

The problems continue all the way up in the evolutionary sequence to people.

#698 Program Name: Defining Morality in an Age of Confusion

Guests: Doug Sharp and Rich Geer

YouTube Link: <http://www.godtube.com/watch/?v=1FFBMMNU>

In his book "How Darwinism Corrodes Morality" Dr. Jerry Bergman identifies Darwin disciples who screwed up the world with their writings to the point where in contemporary society, it is difficult for people even to know what a moral perspective is. That is why a biblical foundation for morality is so important, and also why a relationship with God is essential to help us when we don't know what is right and what is wrong.

#697 Program Name: How Darwinism Corrodes Morality

Guests: Doug Sharp and Rich Geer

YouTube Link: <https://youtu.be/pJDSf6l5Cj0>

This is the title of Jerry Bergman's new book "How Darwinism Corrodes Morality." He explains how the theory of evolution leads to sexual perversion, eugenics, abortion, euthanasia, war and death. There are several biographies of people whose writings screwed up the world with their immoral philosophies, and how each of them were dependent upon Darwin's teachings.

#696 Program Name: The Craniocervical Syndrome

Guests: Doug Sharp and Rich Geer

YouTube Link: <https://youtu.be/wq0EwpOqUX0>

The FONAR upright MRI with the capability of scanning in any position and producing MRI movies has revealed a syndrome caused by misalignment of the cervical vertebrae where cerebrospinal fluid backs up in the brain and forms lesions. This is the condition of Carol Geer, sister of Doug Sharp and wife of Rich Geer. The diagnosis is hydrocephalus, which is water on the brain and is causing her to be paralyzed. The hope is that correction of this condition using a chiropractic technique may restore Carol's health.

#695 Program Name: Volcanoes

Guests: Doug Sharp and Rich Geer

YouTube Link: <https://youtu.be/1yq2J8HWj9g>

Creationists have about five different theories that model what might have occurred during Noah's flood, and many of them involve the expansion of the continents and creation of the basalt sea floor as the result. We explore the world of volcanoes and the evidence of science and creation.

#694 Program Name: Dr. Damadian's Story

Guests: Doug Sharp, Rich Geer, Dr. Raymond Damadian

YouTube Link: <http://www.godtube.com/watch/?v=1F90BMNU>

Dr. Raymond Damadian recalls the history of his family's escape from the Armenian holocaust and how he was raised in a Christian family. That background provided the means for him to win a scholarship and pursue research that led up to the discovery of the chemical processes in life that gave birth to the ideas that led to the invention of the MRI.

YouTube Link: <https://youtu.be/HZ9aBwEUftw>

Rich Geer's wife Carol, Doug Sharp's sister, has been unable to walk, talk or care for herself for 11 1/2 years after an accident with anesthesia in a hospital that left her in that conditions. For that time, she had been diagnosed with anoxic brain damage. When we interviewed Dr. Damadian last August, he told us about the brain research he's doing and invited us to bring Carol to him. He scanned her with his upright MRI and found hydrocephalus caused by blockage of the cerebral spinal fluid at the cervical area. He believes there is hope for her recovery.

#692 Program Name: The Futility of Skepticism

Guests: Doug Sharp and Rich Geer

YouTube Link: <http://www.godtube.com/watch/?v=YKD7ZPNX>

I Peter 3 says that in the last days there will be scoffers who walk after their own lusts who say "Where is the promise of His coming? For since the fathers fell asleep, all things continue as they were from the beginning of creation. This is the doctrine of uniformitarianism that provides the foundation for evolution.

#691 Program Name: The Goodness of God Refutes Atheism

Guests: Doug Sharp and Rich Geer

YouTube Link: <http://www.godtube.com/watch/?v=1FBM1FNU>

People often become atheists because they become disillusioned with God when they see so much evil in the world. But that is because of their focus. Much of what is good in this world is taken for granted. When our perspective looks for what is good in this world rather than concentrating on what's wrong, God shows Himself.

#690 Program Name: Chichen Itza

Guests: Doug Sharp and Rich Geer

YouTube Link: <https://youtu.be/CwvyeXFA6Pc>

The Mayan-Toltec ruins at Chichen Itza are an example of a civilization that was technologically advanced with accurate astronomical observations, yet had a fearful religion that involved multiple gods and human sacrifice. This is reminiscent of what occurred at the Tower of Babel, and compares to many world-wide pagan religions that feared the signs of the heavens and did what they thought would appease the gods.

#688 Program Name: Evolution and Phlogiston

Guests: Doug Sharp and Rich Geer

YouTube Link: <http://www.godtube.com/watch/?v=19CE9MNU>

A sincere effort to explain the chemistry of fire from the 17th to the 19th century was the theory of Phlogiston. As new scientific facts were finally revealed by Antoine Lavoisier, the theory was disproven, but it still hung around doggedly in various forms for decades because scientists were taught differently. We can compare this with the way the theory of evolution still remains despite the evidence against it.

#687 Program Name: Is the Canopy Theory Still Viable?

Guests: Doug Sharp and Rich Geer

YouTube Link: <http://www.godtube.com/watch/?v=Y7ZDKGNX>

Most of the early creationist books and literature explained the origin of the waters for Noah's flood to have come from a water vapor canopy that surrounded the earth. In the late 1990's Dr. Henry M. Morris commissioned atmosphere scientist Dr. Larry Vardiman to explore this idea by creating computer model simulations. These models showed that if enough water to produce a flood existed in a vapor canopy, it would create a heat problem because of the greenhouse effect. The canopy model is still debated among creationists.

#686 Program Name: Is Agnosticism a Safe Position to Take?

Guests: Doug Sharp and Rich Geer

#684 Program Name: Reasons People Reject Christianity

Guests: Doug Sharp and Rich Geer

YouTube Link: <https://youtu.be/Di6Qaa4DrNI>

There are many examples of things Christians may get caught doing that might cause a person to reject Christianity as a result. Ultimately every person is responsible to God to make that decision for themselves despite the actions of others. If a person finds themselves standing before God someday and they use the excuse that a Christian offended them and that's the reason they rejected Him, how would that fly?

#683 Program Name: A Lesson from the Addo Elephants

Guests: Doug Sharp and Rich Geer

YouTube Link: <https://youtu.be/zSU5A-MOCYE>

Many years ago, elephants near the cape of South Africa were hunted to near extinction because the people in the area were having problems with them. In a place called Addo, the elephants retreated to a spot where it was almost impossible for them to be hunted. Eventually an area was set aside as an elephant park and fenced in. They were fed citrus fruit and the elephants would congregate in one area waiting for their daily feeding. But the elephants destroyed the habitat and the practice was ended in 1978. This shows that handouts with good motives sometimes have unintended consequences.

Guests: Doug Sharp and Rich Geer

YouTube Link: <https://youtu.be/-mnxfBkphk>

In the effort to appear "tolerant" many people make the statement that all religions are basically the same. The ten commandments, however, contradict that idea, and that explains why there is pressure to remove them from public display. The first three commandments, "Thou shalt have no other gods before me, thou shalt not make any graven images, and thou shalt not take the Lord God's name in vain" point out the exclusive nature of Christianity. Jesus said I am the way, the truth and the life. No man can come to the Father except by me."

This seems senseless, and in perspective of heaven and hell, and God's ultimate purpose, there is a paradox that a believer must resolve if he is compelled to go to war.

A wide variety of unrelated species are able to emit light, and their ability to do so not only requires intelligent design but for dozens of different purposes. To imagine that this functionality arose independently in various species by evolutionary chance is incredible.

#643 Program Name: Truth Decay

Guests: Doug Sharp and Rich Geer

YouTube Link: <https://youtu.be/EI04USkQ25s>

Why are people who are otherwise very intelligent attracted to false worldviews and hold onto them? Using Jason Lisle's book, the Ultimate Proof of God's Creation, we obtain a list of fallacies and discuss why people fall into their trap.

#640 Program Name: Homo Nadel

Guests: Doug Sharp and Rich Geer

YouTube Link: <https://youtu.be/1ZQmt4T51oQ>

It is September, in time for school to start, and time for National Geographic to reveal yet another exciting ape-man fossil. This one is named Homo nadel and its discovery in a cave in South Africa is triggering a lot of new scientific research and speculation. The Creation Research Society is mounting a challenge to have it examined for soft tissue and to have it C-14 dated. That would establish it as young.

#641 Program Name: Rock Solid Answers about the Biblical Flood

Guests: Doug Sharp and Rich Geer

YouTube Link: https://youtu.be/apeN4r_XB5Y

The book Rock Solid Answers contains common questions raised by evolutionists about the biblical flood. Three of these are addressed in the first few chapters of this book. Did the flood waters rise above Mt. Everest? Would the flood had released poisonous amounts of mercury in the flood waters? Doesn't caves take a long time to form?

#639 Program Name: Symbiosis

#638 Program Name: H. G. Wells, Darwin and Science Fiction

Guests: Doug Sharp and Rich Geer

YouTube Link: <http://youtu.be/t801-iZ-W10>

H. G. Wells was raised in the church, but under the tutor of Thomas Huxley and after reading Darwin, he abandoned Christianity, became an atheist and evolutionist. His influence caused many to fall away. Science Fiction also has an impact that needs to be considered.

Guests: Doug Sharp and Rich Geer

YouTube Link: <http://youtu.be/G9bFYOeRlrw>

From Atheistic Evolution to Biblical Young-Earth Creation there are a variety of origin models that have been proposed, and even within young-earth creation there are differences of opinions. Dr. Jerry Bergman has written an article describing the differences between these models helping us sort out which one is best.

#633 Program Name: The Hell Creek Formation

Guests: Doug Sharp and Rich Geer

YouTube Link:

Dinosaurs and the soft tissue found in their bones are becoming the creationist's best friends. The Hell Creek Formation in eastern Montana is the site where many dinosaur fossils have been excavated. Various models have been proposed by creationists to explain these finds.

#632 Program Name: Carbon-14 Dating Fossils

Guests: Doug Sharp and Rich Geer

YouTube Link: <https://youtu.be/ZbiRQbdfug>

Evolutionists do not use the Carbon-14 dating method on dinosaur fossils because they believe that dinosaurs are too old to contain Carbon-14. Creation scientists Brian Thomas and Vance Nelson dated sixteen samples of fossils that are supposed to be millions of years old to see if they contain Carbon-14. All sixteen samples showed significant quantities of C-14.

#631 Program Name: Dinosaur Peptide Preservation and Degradation

Guests: Doug Sharp and Rich Geer

YouTube Link: <https://youtu.be/budsAGMOKSg>

Is it possible for intact peptides, DNA, collagen and osteocytes to be preserved for 68 million years? The iDINO project investigates the fragile nature of biological material and eliminates the possibility that these materials could be preserved for deep time. The discovery of these materials in dinosaur bone indicates that these creatures could not have died out millions of years ago. Dinosaurs are young!

#628 Program Name: What if Darwin Never Published?

Guests: Doug Sharp and Rich Geer

YouTube Link: <https://youtu.be/oy6lBgMHSjo>

How would the world be different if Darwin never published Origin of Species, Lyell, Principles of Geology, and if Paley's Natural Theology won the battle of the minds in the nineteenth century? Is the progress of science being held back because evolutionary theories dominate?

#627 Program Name: The Copernicus Affair

Guests: Doug Sharp and Rich Geer

YouTube Link: <http://youtu.be/4nlAGIfAi50>

An article by Dr. Jerry Bergman in the Creation Research Society Quarterly dispels the idea that the church held back scientific progress by persecuting Copernicus concerning his heliocentric model. In fact, the pope at that time, Leo X, invited him to be part of a project to update the calendar.

#626 Program Name: Burrs in my Socks

Guests: Doug Sharp and Rich Geer

YouTube Link: <http://youtu.be/TkJjNRgCyXQ>

Why did God allow thorns and thistles? Why is it that the plants that offer the clearest proof of design are also ones that are either weeds or their designs almost seem pernicious? The answer is surprising. God built these designs as part of the overall coding, knowing that there would be a fall.

An old 1955 Looney Tunes cartoon featured Michigan J Frog, the annoying frog found in the cornerstone of a building who would put on a top hat and sing for his discoverer, but would not sing for anyone else. The cartoon has become for us a symbol of what it takes to stretch the credibility of a paradigm beyond its breaking point, and for that reason it appears ridiculous. We point out how evolution is like that, and that we are asked to believe a paradigm that is far beyond the limits of credibility.

YouTube Link: <http://www.godtube.com/watch/?v=021JOMNU>

There is an attempt by those who hold a postmodern worldview to push the boundaries of what is acceptable sexual behavior. If a biblical creationist foundation is rejected in favor of evolution, then the only standards for sexual behavior are limited by what a person thinks is right or wrong. The inconsistency of this position is exposed and the Bible standard is explained.

Early attempts to measure intelligence through testing began with Francis Galton, cousin of Charles Darwin. His experiments were considered a failure, but it led to other psychological tests that have been administered typically to 12-year old students. These IQ tests have had a spotty history and in their worst case use led to eugenics, and in normal use limited opportunities for students to receive advanced training. Doug and Rich explain the Christian view of this and propose an alternative based upon scripture.

Guests: Doug Sharp and Rich Geer

YouTube Link: <http://www.godtube.com/watch/?v=WYLDGPNX>

It appears to be silly season for evolutionists with a whole series of unusual claims, one of which that life could have come about by chance on comets. An experiment where dry ice was bombarded by BBs in a methane, ammonia and hydrogen gas atmosphere produced the simple amino acids glycine and alanine. Neither of these carry information content, and it is far from being proof of chemical evolution. Another claim that extraterrestrial life was found on a weather balloon is discussed.

#556 Program Name: Job's Comforters

Guests: Doug Sharp and Rich Geer

YouTube Link: <http://youtu.be/FFynZCJpLWM>

The book of Job is probably the oldest book in the Bible and in the beginning it gives a glimpse of what occurred behind the scenes in heaven. Job's test by Satan was severe and typical of his dark kingdom. But though he lost the battle, a more subtle attack took place when Job's friends came to comfort him. They started out mourning his fate, then gently probing him, and as they speculated about the cause of his trouble, their criticisms became full-frontal attacks. The example Job demonstrated in keeping his integrity needs to be considered by all of us.

#548 Program Name: Evolution Ministry List

Guests: Doug Sharp and Rich Geer

YouTube Link: <http://www.godtube.com/watch/?v=009JJ1NU>

Evolution is a principality with a whole host of harmful subservient entities, much like bitterness, fear, accusation, envy, and jealousy. Romans chapter 1 starts with people who are ashamed of the gospel of Christ, and are unthankful, knowing there is a creator but fully reject Him. This produces a whole host of bad fruit, detailed in the rest of the chapter.

#545 Program Name: God-of-the-Gaps

Guests: Doug Sharp and Rich Geer

YouTube Link: <http://www.godtube.com/watch/?v=009JJFNU>

The God-of-the-Gaps argument is a red herring ruse designed to distract from the real issue of design. It basically accuses creationists of appealing to God as an explanation when science cannot explain something, and when science makes a discovery our God gets smaller. In the article Naturalism and Providence, it shows how this argument disappears knowing that the presuppositions of science rest upon theology, and that atheists have co-opted science to try to discredit theism.

An interview with Pete Stoughton, who teaches a twelve-week class based on the book by Henry W. Wright: A More Excellent Way to Be in Health. Pete reflects on the reasons why people go for prayer for healing in the church but do not receive it, and for the most part it is because the root cause of illness is not dealt with. Fear, unforgiveness, bitterness, rejection, trauma, envy, jealousy and occult are spirits that must be recognized, repented of, renounced, resisted, removed.

One of the benefits of a creationist Christian worldview is the opportunity to apply the principles of the Bible to common problems. The roots of bitterness are explored in a book by Henry Wright, entitled A More Excellent Way to Be in Health. Bitterness causes physical problems identified by the medical field, and there is a Christian biblical procedure we can use to get rid of it.

#542 Program Name: Walking out of Trauma

Guests: Doug Sharp and Rich Geer

One of the benefits of being a creationist is the opportunity to apply Biblical principles to health and reap the transforming benefit. Henry Wright's book "A More Excellent Way to be in Health" is an example of a creationist prediction. Traumatic experiences can be healed through the knowledge that God can reverse their effect through forgiveness. This book describes the "walk out" process that can gain freedom from trauma using Biblical principles.

Dr. Jerry Bergman's article Whale of a Tale shows the example of dolphins, whales and cetaceans, and the problems with their supposed evolutionary ancestry. Other creatures such as the giraffe, platypus and elephant are also examples. Nothing works unless everything works is the creationist evidence against gradual evolutionary development.
